Sep. 22. 1814. W. Huggesford came to the Chapin Office.

The image shows the front cover of an antique book. The cover is decorated with a traditional marbled paper pattern, featuring large, irregular, dark grey or black shapes with a fine, pebbled texture, separated by thin, winding veins of a lighter, off-white color. This pattern is known as a 'stone' or 'shell' marbling. In the center of the cover is a rectangular white paper label with clipped corners. The label contains handwritten text in a cursive script. The spine of the book, visible on the left, is made of a plain, light-colored material, possibly leather or cloth, and shows signs of wear and age. The overall appearance is that of a well-preserved but aged historical document.
